

Crear un entorno virtual

```
C:\Users\ycort>cd C:\Users\ycort\Documents\Launch X\CursoIntroPython-main  
C:\Users\ycort\Documents\Launch X\CursoIntroPython-main>env\Scripts\activate  
(env) C:\Users\ycort\Documents\Launch X\CursoIntroPython-main>pip freeze  
python-dateutil=2.8.2
```

Instalar una biblioteca

```
(env) C:\Users\ycort\Documents\Launch X\CursoIntroPython-main>pip install python-dateutil  
Requirement already satisfied: python-dateutil in c:\users\ycort\documents\launch x\cursointropython-main\env\lib\site-packages (2.8.2)  
Requirement already satisfied: six>=1.5 in c:\users\ycort\documents\launch x\cursointropython-main\env\lib\site-packages (from python-dateutil) (1.16.0)  
WARNING: You are using pip version 21.2.4; however, version 22.0.3 is available.  
You should consider upgrading via the 'C:\Users\ycort\Documents\Launch X\CursoIntroPython-main\env\Scripts\python.exe -m pip install --upgrade pip' command.  
(env) C:\Users\ycort\Documents\Launch X\CursoIntroPython-main>pip freeze
```

Desactivar un entorno virtual

```
(env) C:\Users\ycort\Documents\Launch X\CursoIntroPython-main>deactivate  
C:\Users\ycort\Documents\Launch X\CursoIntroPython-main>
```
